SUBJECT:

Attached is a report prepared for [] DIA Vice Director for Foreign Intelligence, entitled "What Senior DoD Policy Makers Say About Intelligence With An Analysis Of Their Perceptions" by [] the DIA representative to the Working Group on the User Survey. Of particular interest are the "Executive Summary" (page I), the section entitled "Some Conclusions from the Findings and Other Data" (pages 28-31), and the section entitled "Recommendations from the Findings, Conclusions, and Supporting Studies" (pages 32-38). Although the DIA Study was based on answers to 42 questionnaires submitted by senior DoD policymakers, and information derived from interviews with 30 of these respondents, the key judgments given in the Executive Summary are consistent with the findings from the IC Staff analysis based on surveys prepared by 135 policymakers and interviews with some 35 respondents.
